

Digital Literacy Portfolio — CSE0001

VIT Bhopal University | School of Computing Science and Engineering

Student Information

Field	Details
Name	Firoz Ahmad Khan
Registration Number	25BCE11204
Programme	B.Tech — Computer Science & Engineering (Core)
Year & Semester	First Year, Semester II
Course Code & Title	CSE0001 — Digital Literacy

About This Portfolio

This repository is my complete submission for the **CSE0001 Digital Literacy** course project.

The portfolio spans five modules of the course, each mapped to a practical task. Every task required me to actually build something, set something up, or research something real — not just write about it. The GitHub repository itself is part of the deliverable, and the work documented here reflects my genuine engagement with each module.

All written content, reflections, and design choices are original. This repository will remain as a permanent part of my digital portfolio beyond this course.

Task Summary

Task	Module	Description	Marks
Task 1 — Digital Literacy Infographic	Module 1	Designed a one-page infographic titled " <i>Be Digitally Smart</i> " using Canva. Covers the definition of digital literacy, five useful tools for students, and five safe internet practices.	20
Task 2 — Student Digital Portfolio	Module 2	Created and configured professional accounts on GitHub, LinkedIn, and Kaggle. Set up a GitHub profile README. Filled in LinkedIn Education section.	20
Task 3 — Coding & Collaboration Platforms	Module 3	Completed the <i>Solve Me First</i> beginner challenge and Python Introduction challenge on HackerRank. Built a 5-question <i>Digital Literacy Awareness Quiz</i> on Google Form.	20

Task	Module	Description	Marks
Task 4 — Email Etiquette & Social Media Guide	Module 4	Drafted two professional emails — a deadline extension request to a professor and an internship interest email to a company coordinator. Created a Social Media Do's and Don'ts checklist.	20
Task 5 — Cybercrime Awareness Case Study	Module 5	Researched and wrote a 200+ word case study on UPI / Online Payment Fraud (the Fake QR Code Scam). Produced a 9-point <i>Stay Safe Online</i> prevention checklist with two UPI-specific tips and official reporting channels.	20
Repository Structure	Bonus	Correct folder hierarchy, all required files present, complete README.	+5
Total			100

Pass mark: 50 / 100. This project is graded Pass/Fail and does not contribute to CGPA.

Tools & Platforms Used

Task	Tool / Platform	Purpose	Link
Task 1	Canva	Infographic design	canva.com
Task 2	GitHub	Code portfolio, version control	github.com
Task 2	LinkedIn	Professional networking	linkedin.com
Task 2	Kaggle	Data science practice & competitions	kaggle.com
Task 3	HackerRank	Coding challenges & placement prep	hackerrank.com
Task 3	Google Forms	Quiz creation & response collection	forms.google.com
Task 5	Cyber Crime Portal Reference	Reporting channel for students	cybercrime.gov.in
